

## Windows 7 - Path to All Users Desktop and All Users Start Menu

Submitted by ingram on Fri, 01/25/2013 - 7:41pm  
Windows 7 all users desktop

"Where is the All Users Desktop and All Users Start Menu folders in Windows 7 and why did they change it?" is probably the question you are asking yourself right now. I'm not really sure why they changed it, but I do know the path to where they are located:

*All Users Desktop Folder:*

**C:\Users\Public\Desktop\**

*All Users Start Menu Folder:*

**C:\ProgramData\Microsoft\Windows\Start Menu\**

In Explorer, you need to check "Show Hidden Files" at Tools > Folder Options > View in order to view these folders. Alternatively, you can just type the full path in Explorer or the Run box.
